1 Download and install APP

Search and download free APP named "HDSmartIPC" in Apple APP store, Google play or Electronic market, and install it.

HDSmartIPC

2 Power up the LUNA

Connect one end of the USB cord (**B**) to the USB port on the LUNA ❸ and the other end to the USB AC Wall Charger (**F**).

3 Turn on the LUNA's WiFi

Flip the WiFi switch ❶ on the back of the LUNA to the ON position. Wait about 1 minute for the device to start up. When ready the Wifi indicator light ❹ will flash red/blue.
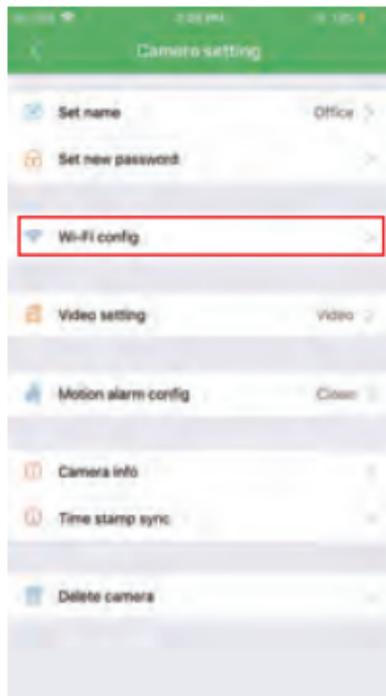

1. Open smartphone settings, search and connect the device's wireless signal named"AI/LM......",wait Wi-Fi connected, and phone status bar appear Wi-Fi 📶 symbol.
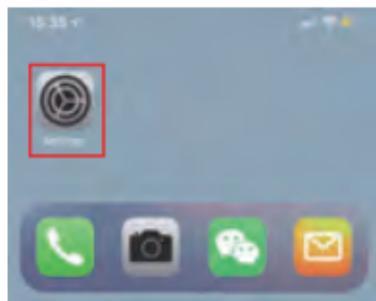

2. Eneter APP, app will add just connected camera automatically, Camera Online then;
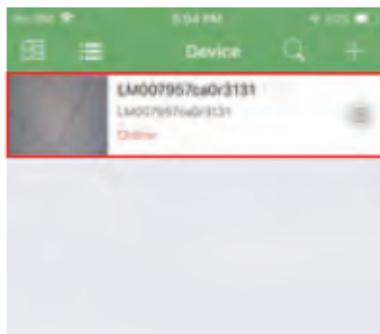

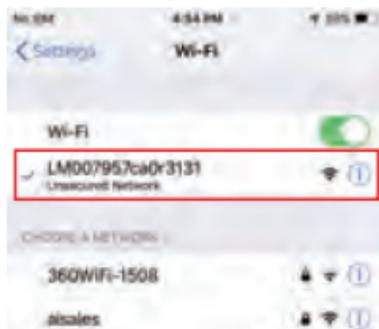

3.Press the gear icon ⚙ after the camera and select Device settings ,select Wi-Fi Config.

4. Select the router Wi-Fi and input password, camera will be connected to the router Wi-Fi. The smartphone will disconnect the signal from device and connect to the router Wi-Fi.

5. Quit APP, and device restart automatically and ready again in 30 seconds.

6. Enter APP and check live video locally or remotely anywhere.
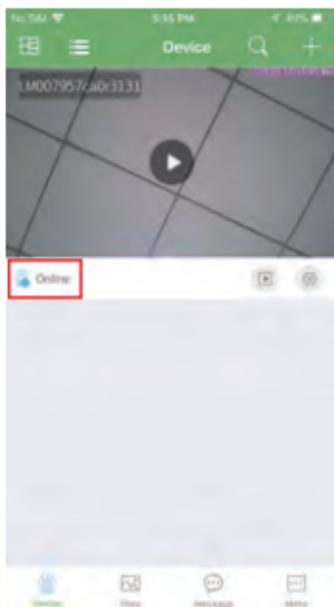

Set name: Press the settings icon ⚙ near the camera view and select Device settings, select Set name, insert name like Office,Room...

Set new password: Tap the settings icon ⚙ near the camera view and select Device settings,select Set new password and change it to new one. Default one is 8888.

LAMP LIGHT

From the Pro iCam home screen go to your camera's settings by clicking on the settings icon ⚙ or if not visible, touch and hold on the camera listed.

On the popup window with additional options, select Lamp, and on the next screen you can adjust the color and brightness of the lamp.
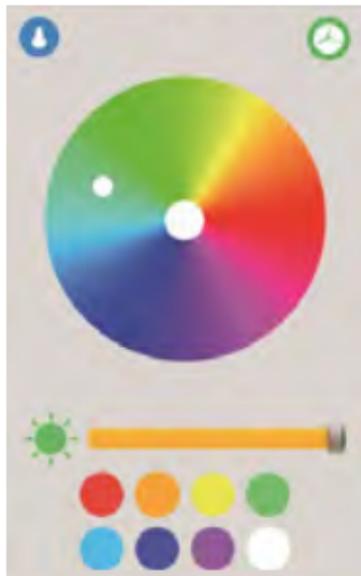

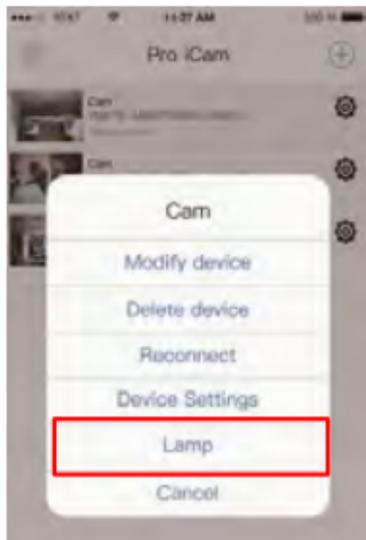

TROUBLESHOOTING

Most issues can be solved by formatting the memory card, restarting the LUNA, or resetting the LUNA's WiFi.

Formatting the memory:
WARNING: formatting the memory will wipe out all the recorded media previously stored.

Formatting the memory will clean up any file corruption that may exist preventing the device from operating correctly.

Restart the LUNA
Restart the app, disconnect the power from the LUNA, turn off the WiFi ❶ for about 30 seconds, reconnect the power and finally turn on the WiFi ❶

Reset the LUNA's WiFi:
While the Wifi power is on, press and hold the hidden pinhole ❶ switch ❷ for about 10 seconds.
