

#### **OPERATION**

# Charging

Use the included USB cable to connect it to a USB charger or computer USB port to charge the camera. The camera is fully charged when the red light on the bottom goes out.

# Installing the memory card

Please install a MicroSD memory card in the camera before using. Ensure the card is latched in place.

#### Power ON/OFF

Press and hold the button for 5 seconds to power on the camera. It powers into video recording by default (solid blue ring light). Pressing and holding the button for 3 seconds will shut it off.

### Record Video

A solid blue ring light means video is recording. Hit the button to pause. The light will flash continusly to indicate that its on standby. Hit the button again to restart recording.

#### WIFI SETTUP

Please install the SportCam app from Apple store or Google play. You may scan the QR codes below for a direct link.

Android

From standby or video recording, double press the button on the camera to switch into WiFi mode. The ring light will flash in between blue and green indicating the WiFi is on.

Connect your phone's WiFi directly to the camera. In your phone's WiFi settings look for a network starting with the name **AVON\_\*\*\*\***. The default password is **12345678** 

#### WIFI SETTUP

Once connected the ring light will go into solid green. You can now use the **SportCam** app to setup the camera.

Add and connect to the camera for live vew by tapping on the CAMERA button in the apps opening screeen.
